

1. General Information

Patient Name	Bella Klein
Date & Time	2025-05-04 18:35
Doctor's Name	Dr. Smith
Visit Type	Routine Checkup

2. Subjective

Emotion Distribution (%)

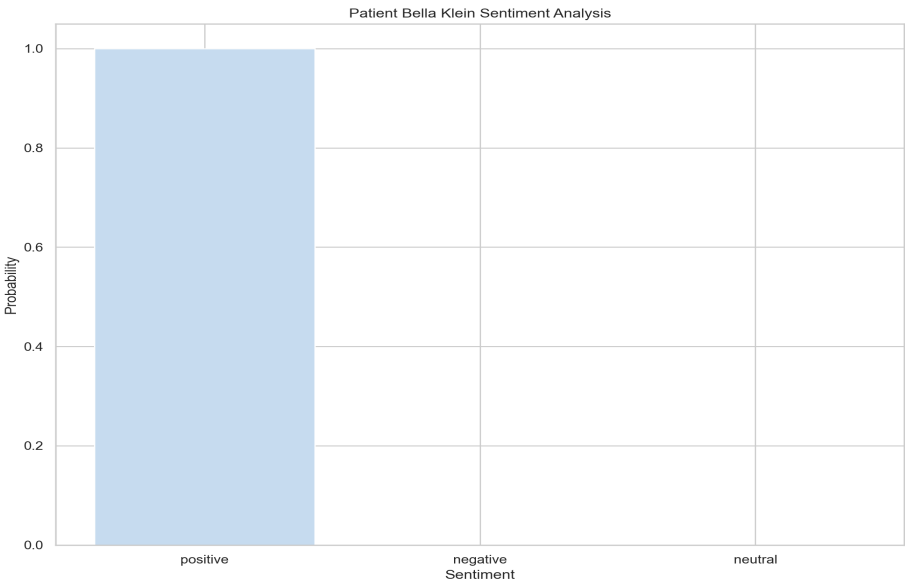

Emotion	%
Angry	0%
Happy	0%
Neutral	0%
Sad	0%
Surprise	0%

Emotion Analysis Output

Emotion Analysis Conclusion: No significant change detected from previous visit.

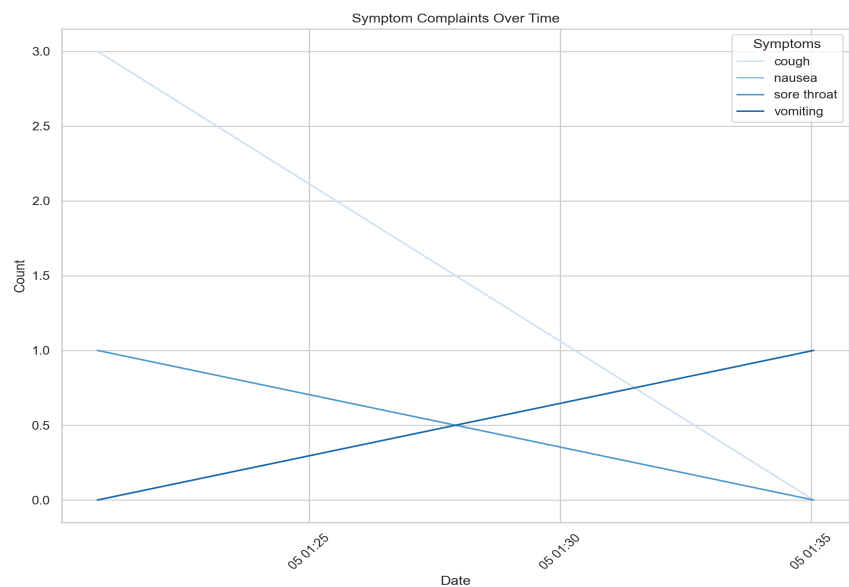

Sentiment Analysis Output

Sentiment Analysis Conclusion: sentiment analysis shows positive change

3. Objective

Frequency Analysis Output

Symptom	Count
vomiting	1
nausea	1

Facial Mapping Analysis Output

No facial mapping analysis was recorded

Gait Analysis

Motion Analysis Conclusion: no motion analysis was recorded

4. Assessment Summary

Summary: The patient is experiencing symptoms of vomiting and nausea, suggesting potential gastrointestinal distress. There are no reported positive emotions or sentiments, indicating they may not be feeling well.

Conclusion

Conclusion: The patient's condition appears to be not healthy and may require further evaluation to determine the underlying cause of the gastrointestinal symptoms.

Suggested Diagnosis

Diagnosis: The symptoms of vomiting and nausea could indicate a possible gastrointestinal infection or another underlying issue that needs to be investigated further. It's important to carry out additional tests to rule out any serious conditions.

Recommendations for the Doctor

Recommendations:

1. Conduct a thorough examination and lab tests to rule out infections or gastrointestinal disorders.
2. Consider prescribing antiemetic medication to help alleviate nausea and vomiting.
3. Advise the patient to stay hydrated and monitor their symptoms closely for any changes.
