

1. General Information

Patient Name	Jorge Lujan
Date & Time	2025-05-04 18:07
Doctor's Name	Dr. Smith
Visit Type	Routine Checkup

2. Subjective

Emotion Distribution (%)

Emotion	%
Angry	0%
Happy	0%
Neutral	100%
Sad	0%
Surprise	0%

Emotion Analysis Output

Emotion Analysis Conclusion: No significant change detected from previous visit.

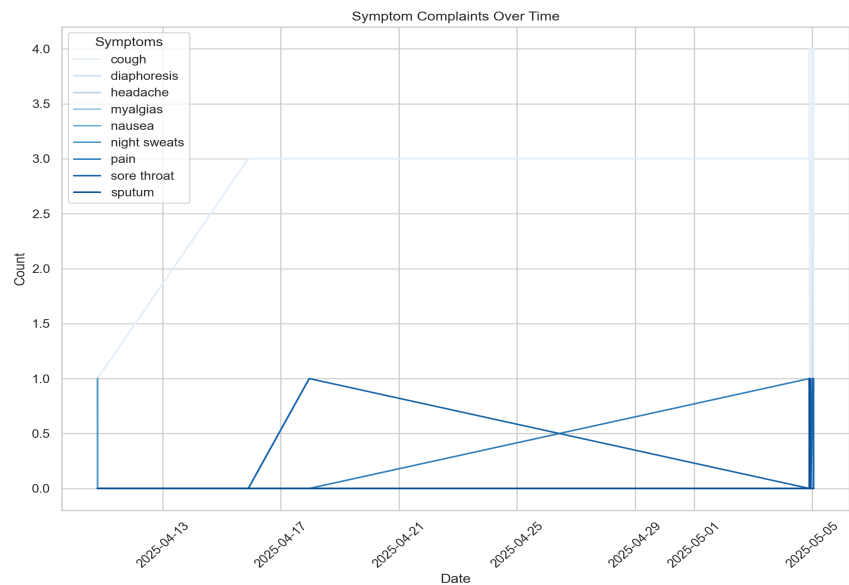

Sentiment Analysis Output

Sentiment Analysis Conclusion: sentiment analysis shows no change

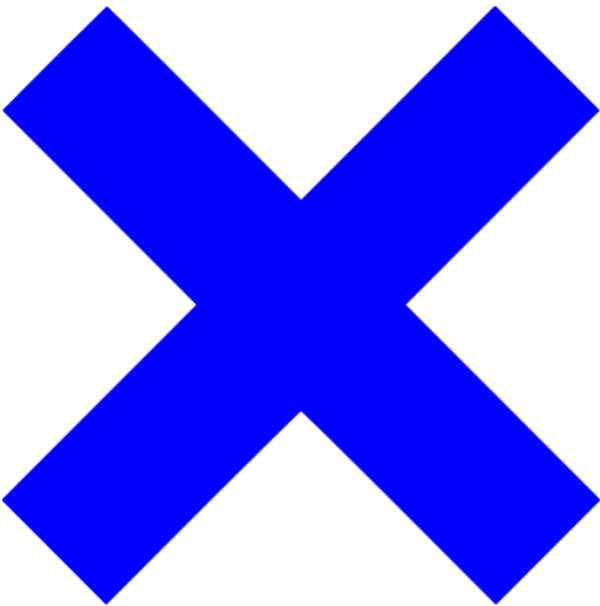

3. Objective

Frequency Analysis Output

Symptom	Count
nausea	1

Facial Mapping Analysis Output

No facial mapping analysis was recorded

Gait Analysis

Motion Analysis Conclusion: no motion analysis was recorded

4. Assessment Summary

Summary: The patient reported experiencing nausea once, with a neutral emotional response and no indications of happiness, sadness, or anger. This suggests the patient may be dealing with a mild or temporary condition, but further monitoring is necessary.

Conclusion

Conclusion: The patient's current health status appears to be stable, as there are no significant red flags or indications of a serious health risk at this time.

Suggested Diagnosis

Diagnosis: Nothing is wrong based on the current symptoms reported.

Recommendations for the Doctor

Recommendations:

1. Suggest the patient maintain a food diary to track any potential triggers for nausea.
2. Recommend hydration and a bland diet to help alleviate nausea symptoms.
3. Schedule a follow-up appointment to monitor symptoms and assess for any changes or additional concerns.
